## SUMMARY:

Full stack software developer with expertise in front-end and back-end development with great knowledge of AI, ML, DL, LLM models and Gen-AI, experienced in leading cross-functional teams.

## TECHNICAL SKILLS:

- **Frontend** - Javascript, React.js, Next.js, Redux, Zustand, Typescript, Ruby on Rails
- **Backend** - Node.js, Express.js, Typescript, Ruby, PHP
- **DevOps** - Docker, Kubernetes, AWS
- **Database** - MySql, MongoDB, PostgreSQL, Convex

## EXPERIENCE:

**Full stack developer** | Waysorted | August 2025 - Present

- Developed and maintained responsive, user-friendly front-end interfaces using modern frameworks (e.g., React/Next.js), ensuring optimal performance and seamless user experience across devices.
- Collaborated on backend development by designing REST/GraphQL APIs, integrating databases, and implementing secure, scalable server-side features.

**Frontend developer** | Techsagelabs | January 2025 - March 2025

- Built fully responsive and mobile-friendly UIs using modern frontend technologies, ensuring seamless performance across devices and screen sizes.
- Implemented smooth, interactive animations and transitions to enhance user engagement and create a visually appealing user experience.

**IBM skillbuild summer internship** | CSRBOX | June 2024 - August 2024

- Built a ChatBot Based on Watson AI Tool.
- Learned and gained inside information about machine learning and AI by experts.
- Completed Course on soft skills and management.

## PROJECTS:

### **Collaborative text editor**

- Built a real-time collaborative text editor with user authentication, rich-text formatting, and multi-user live cursors.
- Integrated Clerk for auth, Convex for real-time database syncing
- Used Tiptap as the core editor, Liveblocks for multi-user presence and collaboration
- UI built with Shadcn, Tailwind CSS; includes commenting and shared editing
- **Tech Stack:** Next.js, Tiptap, Liveblocks, Convex, Clerk, Shadcn/UI

### **E-commerce website | MERN STACK**

- Built a full-stack e-commerce website with admin dashboard, product management, and secure checkout.
- Auth system with bcrypt & JWT, category-based filtering
- Stripe integration for payment and image uploads via Cloudinary
- **Tech Stack:** React, Tailwind CSS, Node.js, Express, MongoDB, Cloudinary, Stripe, Multer, JWT

## EDUCATION:

### **University school of automation and robotics | GGSIPU EDC | 2022 - 2026**

- Btech | Artificial intelligence and machine learning

### **St. joseph's academy | Savita vihar**

- 12th | CBSE | PCM | 80%
- 10th | CBSE | 88%

## SOFT-SKILLS AND INTEREST:

**Language known** - English, Hindi

**Hobbies/Interest** - Fitness, Tech, Travelling, Interacting with new people
